# Use Cases & Personas

Pay-by-link and QR Pay are the ideal tools for businesses that provide personalised services to their customers

## Food delivery

Home food delivery is increasing all over the world. These businesses need a secure payments solution with the ability to charge their customer before delivery or pick-up takes place.

## Repairs

Property managers, plumbers, electricians, painters, gardeners, locksmiths, house cleaners, all have non-standard pricing and no access to card acceptance terminals. They require flexibility and love simplicity and convenience.

## Tutoring

Private institutes provide a wide variety of academic courses for any learning level. These businesses need flexible remote payment solutions to ease the life of the parents paying the tuition fees.

## Arts & Crafts

Lots of people are looking for personal development or to relax through learning and practicing an art or a craft. Be it piano, guitar or drum lessons, acting, ballet or illustration, the fees can be paid via payment links/QR codes.

## Sports

Parents are encouraging their children to practice sports for a healthy life. Be it football, basketball, tennis, martial arts, swimming or gymnastics, they all require flexible payment solutions that eliminate the need of face-to-face cash payments.
